# Cos'è DETECT-IT?

---

---

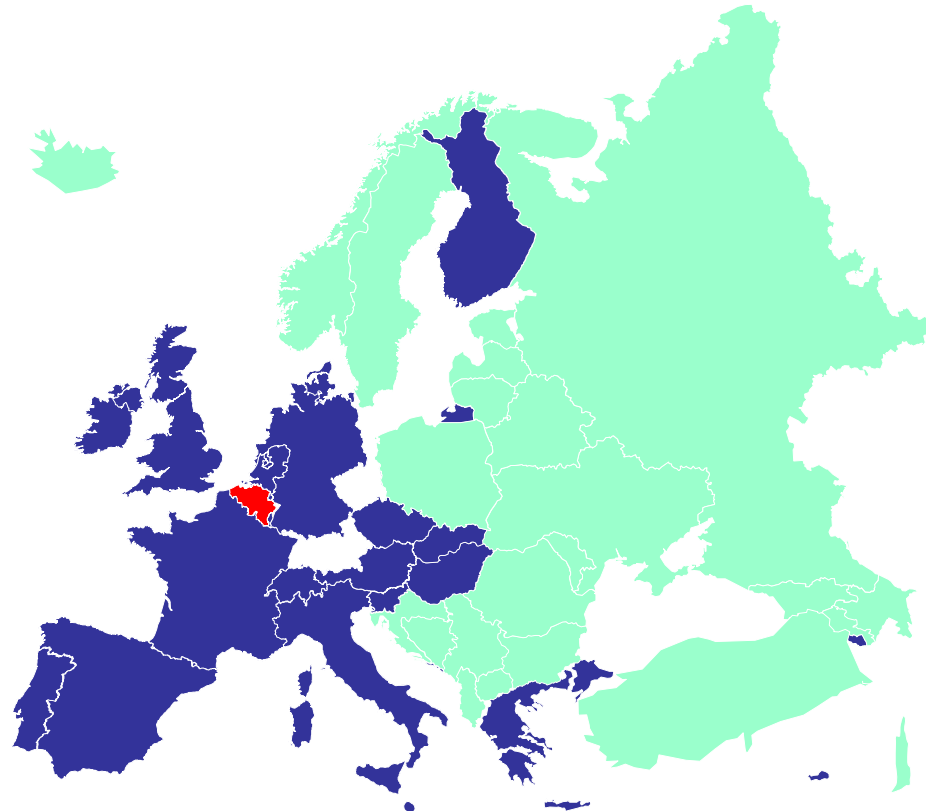

- DETECT-IT è una iniziativa avente lo scopo è stimolare la partecipazione delle piccole e medie imprese in attività di ricerca, sviluppo ed innovazione tecnologica, con particolare riguardo al Sesto Programma Quadro Europeo.
- Il progetto è stato finanziato dalla Commissione Europea, nel quadro del bando ETI, per azioni di “Stepping up Economic and Technological Intelligence” all’interno del VIPQ R&ST

*A DEDICATED NETWORK OF INCUBATORS  
STIMULATING SME PARTICIPATION IN FP6*

- Consorzio:  
42 partners
- Coordinatore:  
EBN - Bruxelles

# Cos'è un BIC?

---

**I Business Innovation Centres sono organizzazioni create e promosse dalla Commissione Europea per diffondere la cultura imprenditoriale e supportare le piccole e medie imprese innovative.**

**La loro ratio consiste nel partecipare allo sviluppo economico locale e regionale, operando attivamente per:**

**-orientare ed assistere l'aspirante o neo-imprenditore nella fase iniziale dell'attività d'impresa;**

**-stimolare la crescita delle PMI già esistenti tramite l'aggiornamento e l'innovazione.**

# Target: 3 Aree di Ricerca

---

---

IST

Food safety & Quality

Sustainable Energy & Environment

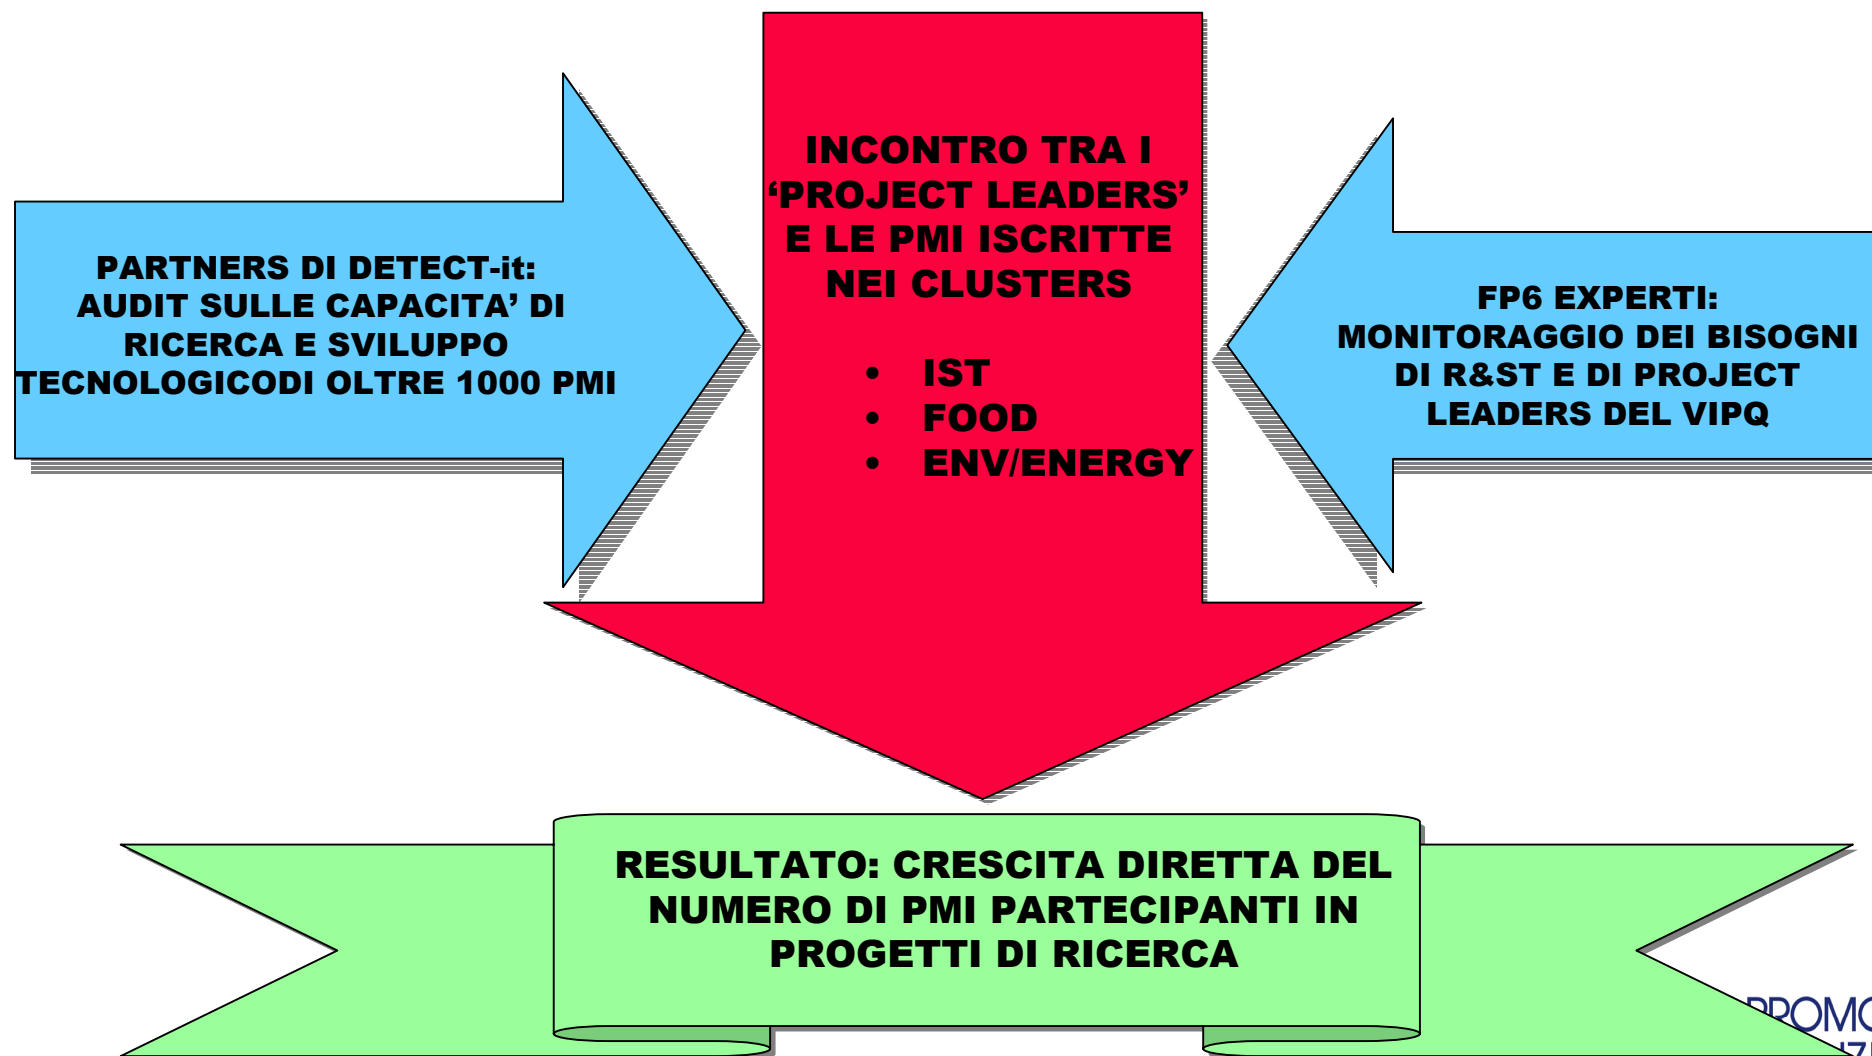

# Metodologia 1: approccio 'Top Down'

---

---

# Esempio di schema opportunità/ricerca partner

---

---

**Proposer:** NaREC New and Renewable Energy Centre, Hungary  
**Call:** FP6 Sustainable Energy Systems (Medium to long-term impact)  
**Title:** Marine current and tidal flow turbines for renewable energy  
**Objective:** To investigate the viability and practicality of tidal energy devices, improving or optimising them where necessary as appropriate both as isolated devices and as part of a farm by using analytical and experimental techniques.  
**Partners sought:** Universities, Testing facilities, Engineering companies, Manufacturers

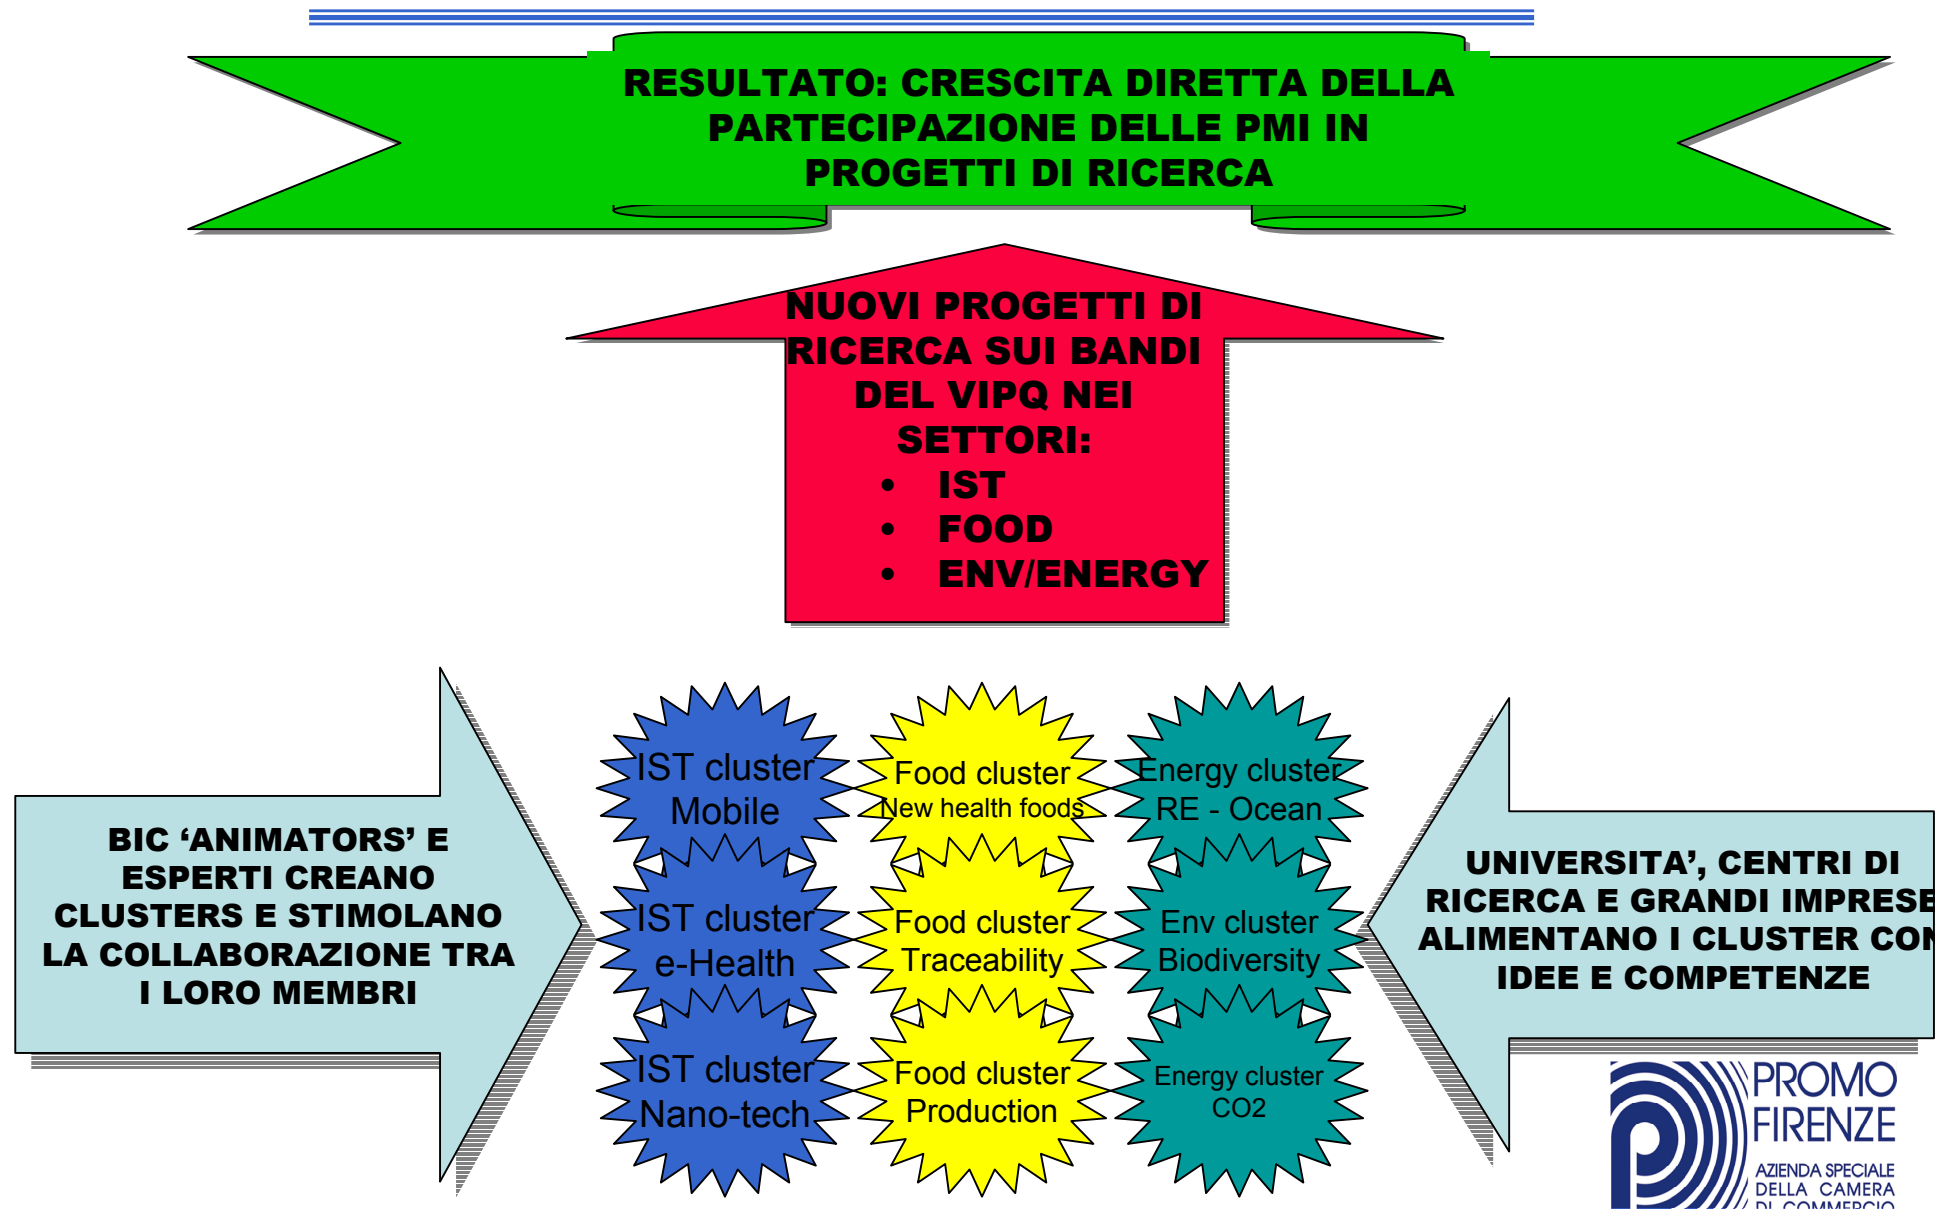

## Responses:

**Environmental Network Ltd**, Scottish SME involved in Environmental Impact Assessments (EIA); Environmental Management Systems (ISO/EMAS); Coastal Zone Management; Marine EIAs

**Light wave Technologies Limited**, Irish SME with expertise in power engineering, system design and specification

“My company, **Powertech Labs** will be very much interested in participating in the above mentioned program. For your information, Powertech Labs is one of the 51 partners for the EU- CA project on ocean energy. Powertech Labs has been instrumental in establishing "Ocean Renewable Energy Group (OREG) in Canada.

## Metodologia 2: approccio 'Bottom up'

# Risultati raggiunti

---

## Data base

1366 organizzazioni iscritte, di cui 1097 PMI

## Cluster del Food

482 in totale, di cui 353 PMI

## Ricerche partner

487 proposte di progetto in totale, con 78 istituti/enti/impres coinvolte  
di cui:

48 riguardanti il settore 'Food safety & Quality', con 15 imprese coinvolte
